## Profile

Motivated and fast-learning BCA student with hands-on experience building AI-powered web applications, modern portfolio websites, and SaaS-style projects. Inspired by modern AI engineering workflows and production-focused development systems similar to professional ML engineers, while building practical projects independently through self-learning, experimentation, and freelance work. Worked with international freelance clients to develop responsive websites, improve user experience, and integrate AI-based features. Passionate about AI engineering, automation, full-stack development, and creating modern digital products with real-world impact. Strong interest in LLMs, AI tools, cloud deployment, and scalable web systems. Skilled at turning ideas into functional products using modern technologies and clean UI/UX design.

## Education

### BCA 1st yr

DY PATIL UNIVERSITY

2025 – Present | Pune

Relevant Areas: Artificial Intelligence, Web Development, Programming Fundamentals, Database Systems.

## Certificates

- AI & Prompt Engineering Self-Learning
- Full-Stack Web Development Practice
- Projects Modern Frontend Development
- AI Workflow & Automation Exploration

## Professional Experience

- Developed modern responsive websites and AI-powered web applications for freelance and personal projects using React.js, Tailwind CSS, Node.js, and JavaScript.
- Integrated OpenAI APIs, chatbot systems, and automation workflows to improve functionality and user interaction across web platforms.
- Managed deployment pipelines, GitHub repositories, domain setup, hosting configuration, and production-level website maintenance.
- Improved frontend performance, mobile responsiveness, and overall UI/UX through optimized component structures and clean design practices.
- Collaborated with clients to understand requirements, deliver customized solutions, and maintain smooth project communication.

### Projects

- ProjectsAI SaaS Web Platform
- Built an AI-based SaaS concept platform with modern frontend design and scalable architecture.
- Integrated AI features, responsive UI, authentication flow concepts, and deployment systems.
- Technologies: React.js, Node.js, Tailwind CSS, OpenAI API, Render, GitHub.

### Personal Portfolio Website

- Designed and developed a modern personal portfolio website to showcase projects, skills, and freelance work.
- Focused on professional branding, smooth animations, clean UI, & responsive performances
- Technologies: Next.js, Tailwind CSS, Framer Motion.

### AI Task Management System

- Worked on a productivity-focused AI task management project with authentication, dashboard concepts, and automation ideas.
- Improved frontend structure, debugging, and deployment handling during development.
- Technologies: React.js, Firebase, JavaScript.

## Skills

### Programming & Development

- Python
- JavaScript
- HTML5
- CSS3
- Tailwind CSS
- React.js
- Next.js
- Node.js
- Express.js

### AI & Automation

- OpenAI APIs
- AI Chatbots
- Prompt Engineering
- AI SaaS Development
- Workflow Automation
- RAG Concepts
- LLM Integrations

### Database & Cloud

- MongoDB
- Firebase
- Supabase
- MySQL
- Vercel
- Render
- Git & GitHub

### Design & Tools

- Figma
- Cursor AI
- VS Code
- Postman
- Responsive UI Design
- Deployment & Hosting
